

Jasmine Sayed

Product Designer & UX Researcher

San Francisco, CA & Seattle, WA | (925) 964-0587 | sayedjasmine@gmail.com | [linkedin.com/in/sayedjasmine](https://www.linkedin.com/in/sayedjasmine) | [jasminesayedportfolio.com](https://www.jasminesayedportfolio.com)

PROFESSIONAL EXPERIENCE

User Experience Designer, Microsoft · *Co-op* Apr 2026 – Jun 2026

- Redesigning Microsoft Foundry, their AI agent-building platform, using Figma and Claude to produce user flows, wireframes, and high-fidelity prototypes informed by prior co-op usability findings.
- Contributing design system updates for developer-facing tools in collaboration with PMs and engineers.

User Experience Researcher, Microsoft · *Co-op* Jan 2026 – Mar 2026

- Led 8 moderated usability sessions on AI agent-building platform; uncovered a critical blocker affecting 100% of participants.
- Designed study protocol and synthesized findings that informed engineering and design priorities.

AI Product Design Intern, DevSpot · *Internship* Jun 2025 – Sep 2025

- Designed an end-to-end messaging feature for an AI product, from low-fidelity wireframes through high-fidelity prototypes and annotated specs for engineering handoff.
- Created reusable design system components and recap reports that improved cross-functional handoff.

UX Designer, Iter8 Design Lab · *Contract* Mar 2023 – Jun 2025

- Delivered 15+ Figma prototypes across 8 client engagements including Amazon DX Hub and Conspire Commerce, spanning enterprise tools, gaming, e-commerce, and nonprofit sectors.
- Designed investor and education pages for Nexstera Tech (climate tech startup); redesign contributed to a \$65K seed funding round and a 120% increase in investor engagement.

KEY PROJECTS

MOMSAFE — AI-Powered Maternal Healthcare, CHI 2025 · *UX Researcher*

- Conducted expert interviews with OB/GYNs and user research with expectant mothers to identify prenatal information gaps.
- Designed an AI chatbot concept with a conversational UI that delivers personalized prenatal insights.

Saksham — Inclusive EdTech for Neurodivergent Learners · *Sole Designer & Researcher*

- Designed an adaptive learning platform with guided reading and customizable UI in Figma, tested with 10 teachers, parents, and clinicians.
- Published in TAGA 2026 Journal and Cal Poly Digital Commons.

Nox+ — Privacy-First Identity Verification · *Project Lead*

- Led 4-person team through survey (n=96), 16 user interviews, and 2 contextual inquiries.
- Designed a privacy-first verification platform with document redaction and transparent data management.

EDUCATION

M.S., Human Centered Design and Engineering Sep 2025 – Jun 2027 (Expected)
University of Washington, Seattle

B.S., Graphic Communication, UX/UI Design Sep 2022 – Jun 2025
California Polytechnic State University, San Luis Obispo

LEADERSHIP & ACTIVITIES

President, UXFest SLO

- Led Cal Poly's UX design hackathon with 140+ participants; managed 50 members across events, design, multimedia, finance, and marketing.
- Held workshops on AI, career development, and portfolios to support member growth.

Member, Figma @ University of Washington

- 1st Place, Figma Make Hackathon — Best Game Mechanics (2025); contributing to collaborative design projects and community events.

UX/UI Designer, Hack4Impact

- Designed 2 full-stack nonprofit apps (GoSee Foundation, Central Coast Coalition) collaborating with engineers and PMs.

SKILLS

Design: User-Centered Design, Design Thinking, Figma, Design Systems, Prototyping, Wireframing, User Flows, Interaction Design

Research: Usability Testing, User Interviews, Survey Design, Contextual Inquiry, Journey Mapping, Mixed Methods, A/B Testing

AI: Human-AI Interaction, AI Agent UX, Conversational UI, LLM Integration, Prompt Engineering, Responsible AI

Accessibility: Inclusive Design, WCAG 2.1, Cognitive Accessibility, Color Contrast

Tools: Figma, Maze, UserTesting, Dovetail, Miro, Notion, Cursor, Python, R, HTML/CSS
