

Jasmine Sayed

Product Designer

San Francisco Bay Area | (925) 964-0587 | sayedjasmine@gmail.com | [linkedin.com/in/sayedjasmine](https://www.linkedin.com/in/sayedjasmine) | [jasminesayedportfolio.com](https://www.jasminesayedportfolio.com)

Product designer pairing end-to-end design with mixed-methods research, focused on making complex enterprise AI and accessibility-first products clear, usable, and inclusive. *Available now or June 2027 · open to relocation.*

EXPERIENCE

UX Designer & Researcher, Microsoft

Jan 2026 – Jun 2026

Co-op · CoreAI · Redmond, WA

- Redesigned model discovery for Microsoft Foundry's 11,000+ AI model catalog, adding live filtering, earlier pricing/region/capability details, and side-by-side comparison to speed developer decisions.
- Led the usability research on Foundry: designed the protocol, ran 8 sessions, and delivered 5 prioritized findings (including a guardrail blocker every participant hit) the team adopted into a homepage redesign.
- Built and documented a reusable Figma component system for developer tooling, cutting handoff back-and-forth with PMs and engineers.

Design & Operations Associate, University of Washington Children's Center

Sep 2025 – Present

Part-time · Seattle, WA

- Built and maintain the center's visual system in Figma (type scale, color palette, reusable components), cutting turnaround on recurring requests while keeping every communication on-brand.
- Produce weekly staff newsletters (Wednesday Wisdoms), event flyers, and classroom activity posters across mental-health, community, and preschool-education campaigns in Figma and Canva.

AI Product Design Intern, DevSpot

Jun 2025 – Sep 2025

Internship

- Designed and prototyped an integrated messaging feature (1:1 and group), refining message threading and timestamp hierarchy through think-aloud testing before handing off engineering-ready specs.
- Audited and rebuilt DevSpot's entire Figma design system, annotating every component inline (sizes, states, variables) so engineers could ship straight from it without clarification meetings.

UX Designer, Iter8 Design Lab

Mar 2023 – Jun 2025

Contract

- Delivered 15+ prototypes across 8 client engagements (including Amazon DX Hub and Conspire Commerce) spanning enterprise, e-commerce, gaming, and nonprofit.
- Redesigned investor and education pages for Nexstera Tech (climate-tech startup), directing visual design, IA, and responsive layout to increase investor-page click-through 120%.

KEY PROJECTS

Nox+ — Privacy-First Identity Verification

Project Lead

- Led a 4-person team through mixed-methods research (survey n=96, 16 interviews, 2 contextual inquiries); trust findings drove a redaction-first flow (validated in usability testing) and the decision to cut an AI document scanner.

Saksham — Inclusive EdTech for Neurodivergent Learners

Sole Designer & Researcher

- Designed and tested an adaptive learning platform with neurodivergent learners (guided reading, customizable UI); peer-reviewed and published in the TAGA 2026 Journal.

LEADERSHIP & ACTIVITIES

- President, UXFest SLO** — Led Cal Poly's UX hackathon (140+ participants) and managed 50 members across events, design, multimedia, finance, and marketing.
- UX/UI Designer, Hack4Impact** — Designed 2 full-stack nonprofit apps (GoSee Foundation, Central Coast Coalition) with engineers and PMs.
- 1st Place, Figma Make Hackathon** — Best Game Mechanics (2025).

EDUCATION

M.S., Human Centered Design & Engineering — University of Washington · GPA 3.9

Sep 2025 – Jun 2027 (Expected)

B.S., Graphic Communication (UX/UI Design) — Cal Poly, San Luis Obispo · GPA 3.5

Sep 2022 – Jun 2025

SKILLS

Design: Figma, Design Systems, Prototyping, Wireframing, User Flows, Interaction Design, Visual Design, Responsive Design, Information Architecture, Design Thinking

Research: Usability Testing, User Interviews, Personas, Journey Mapping, Contextual Inquiry, Survey Design, Heuristic Evaluation, A/B Testing

AI & Accessibility: Human-AI Interaction, AI Agent UX, Conversational UI, Responsible AI, WCAG 2.1, Inclusive Design

Tools: Figma, Adobe Creative Suite, Maze, UserTesting, Dovetail, Miro, Notion, HTML/CSS
